Platform of the Democracy of the United States.

The following is a correct copy of the resolutions, or Platform, adopted by a manimous vote of the National Democratic Convention at Chicago, on the 30th day of August, 1864:

THE RESOLUTIONS.

Resolved, That in the future, as in the past, we will adhere with unswerving fidelity to the Union under the Constitution as the only solid foundation of our strength, security and happiness as a people, and as a framework of government equally conducive to the welfare and prosperity of all the States, both Northern and Southern.

Resolved, That this Convention does explicitly declare, as the sense of the American people, that after four years of failure to restors the Union by the experiment of war, during which, under the pretence of a military necessity or war power higher than the Constitution, the Constitution itself has been disregarded in every part, and public liberty and private right alike tredden down and the material prosperity of the country essentially impaired—justice, humanity, liberty, and the public welfare domand that immediate clords be made for a cessation of hostilities, with a view to an ultimate convention of the States, or other peaceable means, to the end that at the earliest practicable moment peace may be restored on the basis of the Federal Union of the States.

Resolved, That the direct interference of the military authorities of the United States in the recent elections held in Kantucky, Maryland, Missouri, and Delaware, was a shameful violation of the Constitution; and a repetition of such acts in the approaching election will be held as revolutionary, and resisted with all the means and power under our control.

Resolved. That the aim and object of the Demo-

sisted with all the means and power under our control.

Resolved. That the aim and object of the Demogratic party is to preserve the Federal Union and the rights of the States unimpaired; and they bereby declare that they consider that the administrative userpation of extraordinary and dangerous powers not granted by the Constitution: the subversion of the civil by military law in States not in insurrection; the arbitrary military arrest, imprisonment, trial and sentence of American citizens in States where civil law exists in full force; the suppression of freedom of speech and of the press; the denial of the right of asylum; the open and avowed disregard of State right; the employment of unusual test caths; and the interference with and denial of the right of the people to bear arms in their defense, is calculated to prevent a restoration of the Union, and the perpetuation of a government deriving its just powers from the consent of the governed.

Resolved. That the shameful disregard of the Administration to its duty, in respect to our fellow citiministration to its duty, in respect to our fellow-citi-sens who now are, and long have been, prisoners of war in a suffering condition, deserves the severest reprobation on the score slike of public policy and

reprobation on the score alike of public policy and common humanity.

Resolved. That the sympathy of the Democratic party is heartily and earnestly extended to the soldiery of our army and railors of our navy, who are and have been, in the field and on the sea, under the flag of their country; and, in the event of its attaining power, they will recive all the care, protection, and regard that the brave soldiers and sailors of the Republic have so nobly earned.

McClellan's Platform. ORANGE NEW JERSEY, Sept. 8.

ORANGE, New JERSEY, Sept. 8.

GENTLEMEN: I have the honor to acknowledge the receipt of your letter informing me of my nomination by the Democratic National Convention, recently assembled at Chicago, as their candidate at the next election for President of the United States.

It is unnecessary for me to say to you that the nomination comes to me unsought.

I am happy to know that when the nomination was made the record of my public life was kept in view. The effect of long and varied service in the army, during war and peace, has been to strengthen and make indellible in my mind and heart the love and reverence for the Constitution, laws and flag of our country impressed upon me in early youth.

These feelings have thus far guided the course of my life, and must continue to do so to its end.

The existence of more than one government over the region which once owned our flag is incompatible with the peace, the power, and the happiness of the people.

the people. The preservation of our Union was the sole avowed

The preservation of our Union was the sole avowed object for which the war was commenced. It should have been conducted for that object only, and in accordance with those principles which I took occasion to declare when in active service.

Thus conducted, the work of reconciliation would have been casy, and we might have reaped the benefits of our many victories on land and sea.

The Union was originally formed by the exercise of a spirit of conciliation and compremise. To restore and preserve it, the same spirit must prevail in our councils, and in the hearts of the people.

The re-establishment of the Union in all its integrity is, and must continue to be, the indispensable condition in any settlement. So soon as it is clear, or ever probable, that our present adversaries are ready for peace, upon the basis of the Union, we should exhaust all the resources of statemanship practiced by civilized nations, and taught by the traditions of the American people, consistent with the honor and interests of the country, to secure such peace, re-establish the Union, and guarantee for the future the constitutional rights of every State. The Union is the one condition of peace—we ask no more.

We sak no more.

Let me add what I doubt not was, although unexpressed, the sentiment of the Convention, as it is of the people they represent that when any one State is willing to rature to the Union, it should be received at once, with a full guarantee of all its constitutional rights.

er or once, who a full guarantee of all the constitution of the constitution of the constitution of the consequences will fall upon those who remain in arms against the Union. But the Union must be preserved at all hazards.

I could not look in the face my gallant comrades of the army and navy who have survived so many bloody battles, and tell them that their labors and the morifice of so many of our slain and wounded brettren had been in vain; that we had abandoned that Union for which we have so often periled our lives.

that Union for which we have so often periled our lives.

A vast majority of our people, whether in the army and new yor at home, would, as I would, hall with unbounded joy the permanent restoration of peace, on the basis of the Union under the Constitution, without the effusion of another drop of blood. But no peace can be permanent without Union.

As to the other subjects presented in the resolutions of the convention, I need only say that I should seek in the Constitution of the United States, and the laws framed in accordance therewish, the rule of my duty, and the limitations of executive power, underwor to restore economy in public expenditure, re-establish the supremacy of law, and, by the assertion of a more vigorous nationality, resume our sommanding position among the nations of the

THE peculiar taint of infection which we call SCROFULA lurks in the constitutions of multitudes of men. I either produces or produced by an en-feebled, vitiated state of the blood, where a that fluid becomes ir that fluid becomes ir competent to sustain tracting the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial discrete down living disordered dispatch from

discuse, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin it is hereditary in the constitution, descending "from parents to children unto the third and foath generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you.
With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"
healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

s compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Erup-tions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sec-tions of the country, in order that every reader ay have access to some one who can speak him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constituand its fatal results than are healthy constitutions. Hence it tends to shorten, and does
greatly shorten, the average duration of human
life. The vast importance of these considerations has led us to spend years in perfecting a
remedy which is adequate to its cure. This
we now offer to the public under the name of
Ayra's Sarsaparilla, although it is composed of ingredients, some of which exceed the
best of Sarsaparilla in alterative power. By
its aid you may protect yourself from the suffering and danger of these disorders. Purge out
the foul corruptions that rot and fester in the
blood; purge out the causes of disease, and

blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which luck within the system or burst out on any We know the public have been deceived by We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Constitution Life Syrup HAS PRODUCED

A REVOLUTION IN MEDICINE

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigation of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of any disease is directly reached, and the equilibrium restored.

Those who have suffered long from painful and obstinate diseases: Those who have valuly sought relief from advertised medicines; Those who cannot be cured by other physicians—

Are Invited to Use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as herculean as were ever encountered by any reformers.

RAPIDITY OF CURE.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature."
This is our reply: In health, the body, like a well balanced scale, is in a state of Equilibrium. But when, from any cause, down goes one side of the scales, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

GREAT REMEDY POR THE

CONSTITUTION And the only known Remedy

DIABETES and DISEASES of the KIDNEYS and BLADDER,

## CONSTITUTION WATER

Has been pronounced by the Medical Faculty and the public, to be the most wonderful remedy for the per-manent cure of all diseases of the STOMACH, LIV-ER, KIDNEYS and BLADDER that has ever been

manent cure of all diseases of the SIUMACH, Interest ER, KIDNEYS and BLADDER that has ever been offered.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emenated, and we now say let no man doubt, when a single bottle has been known to cure diseases which the bast medical talent in the country failed to relieve. A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it is now used by the most scientific practitioners in the city. It is only second-class physicians that cry down popular remedies, while the better skilled make use of every means to accomplish a cure; and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while others fail in the attempt.—Science is satisfied with the truth.

Give Constitution Water a fair trial—we mean you who are under some SPECIALST'S care from year to year, and we particularly allude to ladies who are constantly resorting to LOCAL TREATMENT, and all sorts of local applications for diseases of the brain.

We have always been careful to use language in our circular that could not shock the most delicate organization, but we receive many communications from persons for whom Constitution Water is adapted, and of whose disease no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter what the disease may be, it should be made known. The medicine is put up for the public and there should be no exceptions.

## DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is without doubt, the most obstinate disease, except Consumption, that affects the human constitution. We have no space for discussing causes, but will state that the effect of the discase is the conversion of the starchy principle (or vegetable portion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is intolerable—the patient drinks constantly without before and sufficiently constituted by the lips, a sweet breath, in the more advances cases, and finally loss of appetite, emaciation, and the patient gradually sinks from exhaustion.

Constitution Water is, without doubt, the only known remedy for diabetes, and we have as much confidence that it is a specific as we have that opium will produce sleep, and truthfully say that it has oured every case in which it has been used.

Stone in the Bladder, Calculus, Grav-el, Brick Dust Deposit, Etc., Etc.,

Diseases arising from a faulty secretion—in the one case being too little, and accompanied by severe pain, and in the other at op profuse secretion—which will be speedily cured by the

DIABETES.

Irritation of the Neck of the Bladder, Inflammation of the Kidneys, Catarrh of the Bladder.

Stranguary, or Burning and Painful

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symtoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you the margin.

PHYSICIANS

Have long since given up the use of bucchu, ubebs, and juniper in the treatment of those diseases, and only use them for want of a better remedy. CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it. DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physican.

Icalled a physician, who attended her about three mo nths, when he left her worse than he found her. I then employed one of the best physians I could find, who attended her for about his months and while she was under his care she did not suffer quite as much pain. About this time she commenced the use of Constitution Water, and to our utter astonishment almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. Dr. Aver: I seldom fail to remove Exprients and Scrofulous Sores by the persevering use of your Sarsapa and I have just now cured an attack of Maignant Expanded with it. No alterative we possess equals the Sarraparantilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Expsipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollnis' worth of medicines. The nicers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your Sarsaparantlla. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Neocastle, C. From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your Sarmaranilla in my family, for general debitity, and for purifying the blood, with very beneficial results, and leel counderce in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skillul physician applied nitrate of silver and other remedies, without any apparenteffect. For afteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing clae we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Scald Head, Sore Eyes.

Syphilis and Mercurial Disease. From Dr. Hiram Sloat, of St. Louis, Missouris

"Dn. Aven.—My dear Sir: I have found your
SARBAPARILLA BU excellent remedy for Syphilis,
both of the primary and secondary type, and effectnal in some cases that were too obstinute to yield to
other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Lion of New Brancack. N. J.

Mr. Chas S. Van Lieu, of New Brunswel, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Aven's Sansara still a cellered him. Few cases can be found more inveterate and distressing than the and it is to be seen as a country of the seen of the second more inveterate and distressing than the and it is to be seen as a country of the second more inveterate and distressing than this, and it took several dozen bot tles to cure him. Leucorrhos, Whites, Female Weakness

Leucorrhora, Whites, Female Weakness, are generally produced by internal Sorafulous Ulceration, and are very often cured by the alterative effect of this Sarsaparatilla. Some cores require, however, in aid of the Sarsaparatilla, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Marrill, of Cincinnati.

"I have found your Sarsaparatilla an excellent alterative in diseases of females Many cases of irregularity. Leucorrhora, Juternal Ulceration, and local debility, arising from the scrothlous diathesis, have yielded to it, and there are few that do net, when itseffect is properly sided by local treatment."

A lady, unwilling to allow the publication of her name, writter:

"My daughter and myself have been cured of a very debilitating Leucorrhora of long standing, by two bottles of your Sarsaparalila."

Rheumatism, Gout, Liver Complaint, Dyspepsis, Heart Disease, Neuralgia, when caused by Scrafula in the system, are rapidly cured by this Ext. Sarsaparilla.
